

**CS1528FC/CS1528FCT type pH**

**electrode**

**Hydrofluoric acid is suitable for environmental use.**

**Specification parameters:**

- pH range: 0–12
- pH zero point: 7.00 ± 0.25
- Hydrofluoric acid concentration: ≤4000 ppm
- Temperature range: 0–100°C
- Pressure resistance: 0-0.6 MPa
- temperature sensor :
- CS1528FC: None
- CS1528FCT :
- NTC10K/NTC2.2K/PT100/PT1000
- Shell material: Glass
- Membrane resistance: <80 MΩ
- Reference system: Ag/AgCl
- Liquid interface: PTFE
- Dual-salt bridge system: Present
- Connection thread: PG13.5
- Cable length: 5 m or as agreed
- Cable connector: pin, BNC, or custom specification

**number of order**

name	content	number
temperature sensor	not have	N0
	NTC10K	N1
	NTC2.2K	N2
	PT100	P1
	PT1000	P2
Cable length	5m	m5
	10m	m10
	15m	m15
	20m	m20
Cable	Tin boring for wire ends	A1

connector	Y male tab	A2
	One-character needle insertion	A3
	BNC	A4
