

# CS1700FC/CS1701FC type pH electrode

## Standard Water Quality

### Specification parameters:

pH range: 2–12 pH

pH zero point:  $7.00 \pm 0.25$

Temperature range: 0–80°C

Pressure resistance: 0-0.6 MPa

temperature sensor :

CS1700FC: None

CS1701FC: NTC10K/NTC2.2K/PT100/PT1000

Shell material: PP+GF

Membrane resistance: <300 MΩ

Reference system: Ag/AgCl

Liquid interface: PTFE

Connection thread: lower NPT3/4, upper G3/4

Cable length: 10 m or as agreed

Cable connector: pin, BNC, or custom specification

### Order Number

name	content	number
temperature sensor	not have	N0
	NTC10K	N1
	NTC2.2K	N2
	PT100	P1
	PT1000	P2
Cable length	5m	m5
	10m	m10
	15m	m15
	20m	m20
Cable connector	Tin boring for wire ends	A1
	Y male tab	A2

	One-character needle insertion	A3
	BNC	A4
