

## **CS4760PTCD Portable dissolved oxygen sensor**

### **--Fluorescence method**

#### **specification parameter:**

Power: 5VDC

Output: RS485 MODBUS RTU

Shell material: POM + 316 stainless steel

IP grade: IP68

Range: 0-20mg/L, 0-200%

Accuracy:  $\pm 1\%$ F.S

Pressure:  $\leq 0.1$ Mpa

Temperature compensation: NTC

Temperature range: 0-50°C

Calibration: Anaerobic water calibration, air calibration

Connection method: 4-core cable / separate aviation connector

Cable length: Standard 5-meter cable, with option for extension

Scope of application: General application, river water, lake water, drinking water, environmental protection, etc.
