

CS4802 dissolved oxygen electrode

—— polarography

Specifications:

Shell material: Industrial PVC

Water resistance rating: IP65

Measurement range: 0-200 $\mu\text{g/L}$; 0.2-20 mg/L

Measurement accuracy: $\pm 1\%$ F.S

Pressure range: ≤ 0.3 Mpa

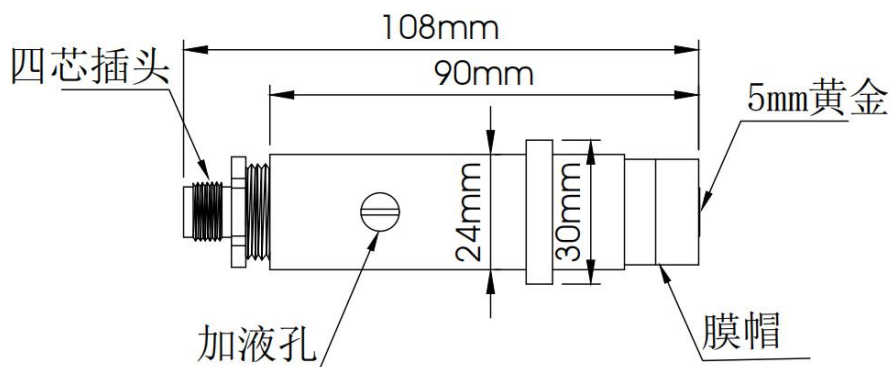

Temperature compensation: NTC10K, other customizations

Temperature range: 0-60°C

Calibration: Anoxic water calibration, air calibration

Connection method: 5-core cable

Cable length: Standard 5-meter cable,

Clamping, with dedicated

lication: Power plant boiler
