

CS6514W-SE

Ammonia Nitrogen (Ammonium Ion) Electrode

Specifications:

- **Type:** PVC Membrane Ion-Selective Electrode
- **Measurement Range:** 0.02 – 18000 mg/L
- **Temperature Range:** 0 – 50 °C
- **Pressure Resistance:** Not Pressure-Resistant
- **Temperature Sensor:** None
- **Electrode Configuration:** Single Measurement Electrode (Requires a separate reference electrode for use)
- **Housing Material:** PVC
- **Connection Thread:** PG13.5
- **Cable Length:** 5 m or Custom
- **Cable Termination:** Pin Connector, BNC, or Custom

Order Number

Name	Content	NO.
Temperature Sensor	\	N0
Cable Length	5m	m5
	10m	m10
	15m	m15
	20m	m20
Cable Connector / Termination	Tinned	A1
	Y insert	A2
	Flat Pin Terminal	A3
	BNC	A4
