

CS6510C-S8 type fluoride ion electrode

Specification parameter:

Concentration range: 1M to 1×10^{-6} M (saturation - 0.02ppm)

pH range: 5 to 7pH (1×10^{-6} M)

5 to 11pH (at saturation)

Temperature range: 0 - 80°C

Pressure resistance: 0 - 0.3MPa

Temperature sensor: None

Shell material: PP

Membrane resistance: $< 50 \text{M} \Omega$

Connection thread: PG13.5

Cable length: S8 connection cable, as per agreement

Cable connector: pins, BNC or as agreed

Order Number

Name	Content	Number
temperature sensor	None	N0
Cable length	5m	m5
	10m	m10
	15m	m15
	20m	m20
Cable connector	Tinning the wire ends	A1
	Y clip	A2
	Inserting a single pin	A3
	BNC	A4
